

## FS2 News letter

Our first venture into **SPACE** has been a huge success for the Sea Goats, to the extent that they now want to be known as the, Space Sea Goats! They have had an, “awesome” time investigating the solar system and the eight planets. They have been researching facts about space for our class information book and have been learning about the difference between fiction, make believe, and true facts. The Sea Goats have been planning their own space station role-play and have begun making their very own Solar System starting with the sun. In maths we are focusing on naming the main 3D shapes (sphere, cube, cuboid, cone, cylinder and prism) and the differences between 2D and 3D shapes. The Sea Goats are now moving onto **Phase 3** phonics and have been practising the phonemes **j, v, w**. Have a fantastic long weekend.

### Reminders

School will be closed on **Monday 12<sup>th</sup> November**. The Sea Goats would like to make papier-mâché planets and rockets. Please could we request any old magazines, newspapers and any junk modelling material. Thank You 😊
