

## FS2 News letter

The Sea Goats have enjoyed exploring the different phonemes in their name and have been practising writing their name using the correct letter formation. In Maths they have been counting dice, adding two groups together and finding the numeral and Numicon to match. There has been lots of discussion and experiments with capacity and how things can be changed by mixing and adding different textures and materials. The children have begun to explore how they look and how they have changed over time and have especially enjoyed mixing different paints to match their skin tone. The children displayed great enthusiasm and resilience when they joined in with the whole school practise for the Terrance Fox run. Next week we will be celebrating Baby Ben's first birthday. The children will be attempting to write shopping lists for party food, writing invitations, making party decorations and baking birthday muffins. Have a great weekend.

### Important Information

Library day will be changed from every Wednesday to Monday. This change will commence on **Monday 23<sup>rd</sup> September**. This is to enable the children have enough time each Wednesday to change back into their school uniform after the P.E. session.
